MEMORANDUM FOR: Deputy Director for Science and Technology

SUBJECT : Participation in the DDS&T Career Development Course #7

REFERENCE : Memo dtd 5 Oct 72 frm DDS&T to DD/S, same subj

25X1 1. In response to your invitation for Support Directorate participation in the DDS&T Career Development Course #7, I am pleased to nominate
25X1 [redacted] Our past attendees have found the Course an educational and rewarding experience, and thus I hope you will be able to accommodate [redacted] in Course #7.

25X1 2. [redacted] is a GS-13, Psychologist, currently assigned to the Psychological Services Staff, Office of Medical Services. [redacted] has an MA degree in Psychology from the University of Richmond and a Ph.D in Experimental Psychology from the University of Virginia. A prime reason used in recruiting [redacted] was his substantial background in applied experimental psychology, aspects of which have direct relevance to some of the problems encountered in the Science and Technology Directorate. His most recent work experience prior to joining the Agency involved experimentation on some of the human factors problems encountered in extracting tactical information from real-time visual displays similar to those employed in certain reconnaissance systems. This experience should be useful in supporting projects of your Directorate.

25X1 3. Since his EOD with the Agency in June 1971, [redacted] has been involved in Psychological Services Staff human factors research primarily for the Intelligence Directorate. I am confident he can make a similar contribution in direct support of the Science and Technology Directorate. The opportunity to attend the DDS&T Career Development Course #7 would provide [redacted] with the knowledge and background necessary to explore the opportunities and thereby make a contribution to problem solving in the Science and Technology Directorate. A copy of his biographic profile is attached for your review.

[redacted]

[redacted]
